Message from The Archbishop of the Anglican Church Kenya

The Most Rev. Dr. Jackson Ole Sapit – Archbishop of the Anglican Church of Kenya

Dearly beloved of God, greetings in the name of our Lord and savior Jesus Christ. We share with you God's love and mercy from the Anglican Church of Kenya. We trust that our God who is ever faithful and gracious has continued to sustain you all from around the world.

The Anglican Church of Kenya is delighted to be part of what God is doing through the ministry of *Missions Anglicanes Afrique* (Anglican Missions Africa). I have personally been part of the dream and the journey of God's transformation of His people this far. The Anglican Missions Africa (AMA) emerged from an idea initially discussed in my office. From small beginnings, like the proverbial mustard seed, it has now grown beyond Kenya, reaching to the rest of Africa and indeed globally. The Bishops in Kenya and around Africa are celebrating the benefits of AMA's transformative mission programs.

AMA continues to partner with the Anglican Church of Kenya to accomplish strategic mission goals. Through healthy church capacity building program, churches have been planted and workers trained. A good example is the Turkana Missionary Area where over the last one and a half years, 383 church workers have been trained and empowered to lead the church. During this period, ten new churches have been planted and actual buildings supported through provision of roofing materials. In support of ongoing ministries, Mothers Union members, Lay Readers and 75 Evangelists (composed of young men and women) have been trained and equipped to take up leadership of the local churches. As a result, demonstrable knowledge of Anglican spirituality, leadership and use of modern digital tools are evident. To support a sustainable progress, a strategic plan was developed to support the Turkana Missionary area's preparation towards becoming a diocese.

I am delighted to see AMA working closely with diocesan bishops in training and mobilizing both clergy and laity for frontline missions across our Province. All the forty-one Dioceses are eager to be part of this movement. Through the 'mega-mission' idea and training, hundreds of new churches have been planted, thousands of people given their lives to Christ and hundreds delivered. We are witnessing that Christ is truly at work in His church.

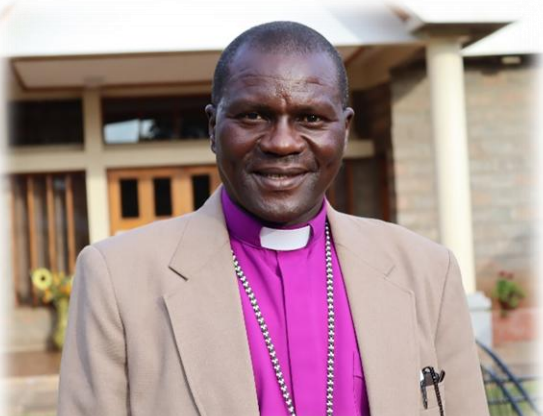

AMA has also been involved in School outreach and discipleship of children and teens, a program that has proved of great impact. Over 300 schools have been reached with over 500,000 young people evangelized, with a 275,000 accepting Christ.

Beyond Kenya, AMA is equally active across Africa, working with churches in Eastern Africa, West Africa, Southern Africa, North Africa, the Indian Oceans, Mozambique and Angola. Through church partnership, AMA has planted over 1, 000 new Churches across Africa in the last five years.

As a result of AMA's initiatives, the Church in Africa is experiencing great revival and renewal. I want to encourage all Anglican Primates and Bishops in Africa to open the door for the ministry of AMA to continue being a blessing to God's church.

The Most Rev. Dr. Jackson Ole Sapit
The Archbishop of Kenya and the Bishop of All Saints Cathedral Diocese, Nairobi

Message from The Chairman- Board of Directors

Rt. Rev. Francis Matui- Bishop ACK Makueni Diocese

Receive warm and Christian greetings from the Board of Directors at Missions Anglicanes Afrique. Missiologists predict that by 2063, Africa will not only be the world of the majority on the planet earth but also the epicenter of Christianity. Four (4) out of every ten (10) will be Christians. I guess by then, majority of us will not be alive and if we shall be, perhaps among the minority older generation. The question that must remain constant on our minds and hearts is; What kind of Christian foundation are we laying now to assure the generation of 2063 sound biblical orthodoxy.

It is this question that at AMA we are responding to. We are focused on the biblical tenets of the Great Commission. We believe and are convinced that Christian mission defines our identity and life. We are persuaded beyond doubt that the essence of our existence is to proclaim the risen Christ. We are purposeful that while we are alive, our lives shall be true radiant of God's glory on earth.

We are delighted that this is being realized and fulfilled through the vision and the mission of AMA. I am specifically thrilled by two programs that have become platforms of renewal and revival at AMA. These are the School outreach and Discipleship program and the Africa Missions Evangelistic Caravan (The Mega Missions). Thousands of young people have been reached and given their lives to Christ and villages evangelized and churches planted. It is our hope and prayer that all Church leaders in Africa and beyond will rise to the occasion and take their rightful positions in advancing the mission of Christ.

I want to finally thank both our international and local partners for supporting us through prayers and finances. Your steadfast support and encouragement has been the pillar of our success.

In conclusion, I take this opportunity to encourage Bishops open the doors of their Dioceses to AMA to serve as the vehicle for missions and renewal.

Yours in Christ,

Message from The Executive Director

**Rev. Canon Capt. Richard Mayabi – AMA
Executive Director**

Greetings from Missions Anglicanes Afrique (Anglican Missions Africa. In this report, we reflect on God's faithfulness in mission.

Isaiah 46: 9-11 God declares, "Remember the former things, those of long ago; I am God, and there is no other; I am God, and there is none like me. I make known the end from the beginning, from ancient times, what is still to come. I say, 'My purpose will stand, and I will do all that I please.' From the east I summon a bird of prey; from a far-off land, a man to fulfill my purpose. What I have said, that I will bring about; what I have planned, that I will do".

It is important to remind ourselves that we are instruments in God's hand for his purposes. He holds our destinies in his hands and directs our vision according to his will. It is this conviction and persuasion that we cherish at AMA. Our desire is to the Church in Africa re-capture her vision for Evangelization, Re-evangelization, discipleship and church planting which are the hall marks of any Great Commission centered church.

Through our partnership with the church in the year 2024, we can attest to the fact that indeed God is at work. We have witnessed thousands of souls saved and delivered. The principle of God's love for the lost humanity is becoming a practical reality. The Lost sheep is being returned home for nurture and care, the lost coin is being sort and searched throughout in every village and towns and the lost sons are coming to the realization that true love and forgiveness of sin and assurance of eternal life is found in none other than Jesus Christ.

Our theme for the years 2024; **Raising God's army for impactful missions:** We are delighted to inform our partners that AMA has steadily continued to grow and expand programs to help the church remain focused on practical missions. Thousands of Lay ministers have joined us for Mega mission outreaches that have witnessed new churches planted and God's Church expand to new villages.

AMA Key programs:

1. **Healthy church capacity building program:** Accredited by Africa International University.
2. **Urban Mission orientation course:** A specialized professional course for senior church workers
3. **School outreach and Discipleship program:** Reaching and discipling every child and teenage for Christ.
4. **Africa Missions and Evangelistic Caravan:** Capacity building and mobilizing the church into missions through evangelism and church planting.
5. **Church planting:** Through Healthy church capacity building program cultivate and encourage church planting movements in Africa as a catalyst for church growth.
6. **Women empowerment program:** Capacity build and mobilizing all Christian women into missions across Africa.
7. **Church Music Renewal:** Capacity build and mentoring musicians in all local churches to enhance quality of worship.
8. **Social outreach:** Accompany the church in needy situations by providing social support
9. **Education for life:** Capacity build and mobilizing Christian teachers as missionaries and disciple makers in every school.
10. **Youth empowerment:** Capacity building program for the youth already out of school to acquire practical skills to manage their own lives.

In this report you will interact with two major sets of information. (i). The ministry report January to December 2024 and (ii). Finance statement for the same period.

Yours in the Lord's Vineyard

MINISTRY PHILOSOPHY

Philosophy: Building a healthy church

The philosophy of A.M. A presupposes that:

- If the Church leadership (*The ordained*) in Africa re-examines herself-understanding and intentionally invests her resources towards fulfilling God's mission by training and mentoring local church leadership (*The Laity*).
- Then it will cause spiritual, socio-economic and political transformation. (*Stewardship*).
- The strategy is anchored on the understanding that the Church the People of God, are central to the realization of God's purposes in the world, and as His instrument, have the responsibility of presenting Christ to the world through their lives and actions in ways that portray Christ as the only viable option. (*Discipleship*).
- It is in this breath that Equipping of Church Leaders (*The laity*) at the local church level becomes foundational and appropriate vehicle for mobilizing communities in Africa to reflect God's kingdom values; experiencing church growth, peace, tranquility and harmony in every village and community in Africa.
- The core objective is to raise well trained and equipped (*men and women, both clergy and lay leaders*) rooted in the theology and practice of Healthy Church across Africa seeking to impact all centers of influence in society.

3. Limited resources to achieve the desired results from our programs e.g The school outreach mission truck and communication and media equipment for broadcasting our work.
4. Low uptake of certain programs i.e Urban orientation program
5. Financial constraints e.g the church not being able to resource trainings.

Treasurer`s Report

We thank God for His unwavering provision and guidance over the affairs of **Missions Anglicanes Afrique (AMA)**. The financial year 2024 has been marked by both progress and challenge, and the organization has demonstrated remarkable resilience and accountability in fulfilling its mission and stewarding the resources entrusted to it.

Historical Perspective and Outlook

Since its inception, Missions Anglicanes Afrique has relied on a combination of international donor support and local fundraising. While donor inflows dipped slightly in 2023, 2024 has recorded a gradual recovery, especially from our partners who have responded positively to transparent reporting and impact-driven programming.

The organization has also begun exploring sustainable funding mechanisms, including diversification of funding sources through localized fundraising efforts and strategic partnerships with like-minded institutions.

1. Contextual Analysis of Operations

In 2023, the organization operated in a highly constrained financial environment characterized by rising inflation and currency instability. Despite this, AMA remained consistent in sustaining its core activities and ministry outreach.

The year 2024 saw a significant improvement in internal financial controls.

- **Administrative costs were better controlled**, resulting in a higher percentage of funds directed toward ministry programs.
- **Diversification of funding sources** was initiated, particularly through localized fundraising efforts and strategic partnerships.

2. Economic Environment

◆ Inflation

Based on data provided by the Central Bank of Kenya, the annual average inflation dropped from 7.67% in 2023 to 4.50% in 2024, representing a decrease of 3.17%

◆ Exchange Rate Volatility:

In 2023, the Kenyan Shilling depreciated sharply against major currencies, especially the USD, which significantly affected dollar-denominated funding. However, in 2024, the shilling has stabilized following central bank interventions and tightening of fiscal policy, allowing for better forecasting and fund utilization.

◆ Taxation and Compliance:

The government’s rollout of the Finance Act 2023 and 2024 introduced several new tax measures that affected NGOs and faith-based institutions, including:

- The implementation of SHIF contributions in place of NHIF,
- Increased PAYE obligations,
- Introduction of the Affordable Housing Levy

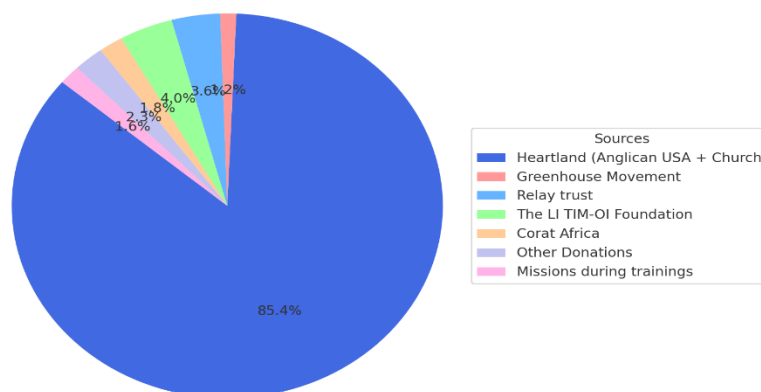

Amidst these challenges, AMA has shown resilience and adaptability in the face of adversity. By implementing robust financial management strategies, proactive risk mitigation measures, and agile decision-making processes. We thank God for the continuous grace Missions Anglicanes Afrique has continued to receive.

The books of AMA were audited by Asteri Audit Services, and in their own opinion, the accounts were properly kept and managed, and the management gave a true and fair view of the situation of the organization as at 31st December 2024.

INCOME

AMA’s income for the year ended 2024 was **Kshs 16,860,022** as compared to **Kshs 13,774,310** for the year 2023. This shows an increase of **Kshs 3,085,712**, which is 18%.

Income Sources 2024

EXPENSE ANALYSIS

- a) Increase in Expenses
- b) Currency fluctuations

Asset Base

AMA's asset base as of 31st December 2024 was **Kshs. 4,294,944**, compared to **Kshs. 3,807,810** in 2023. This affirms the organization's positive financial status and growth.
